**E-Mail:** akalin@martinisoftware.com

**Homepage:** martinisoftware.com

# Fluent in many languages

**Programming Languages:**

Ruby, C, C++, LUA, Bash Scripting

**Web Technologies:**

PHP, XML, XSLT, AJAX, JavaScript, CSS, XHTML, Ruby on Rails

**Database Systems:**

MySQL, CouchDB, SQLite

**Development Tools:**

git, Subversion, TextMate

# Server Sided

Developed a PHP based Jukebox system for Natural Selection radio when the other DJs were not broadcasting. The system handled song requests and streamed them over Shoutcast. This was later redesigned into a Ruby on Rails application and the broadcast system is being written in C++ to stream to a Shoutcast server.

Contributed to some open source PHP projects. See Text_Wiki (http://pear.php.net /package/Text_Wiki/download/0.15) , Highlighter (http://www.koders.com /php/fidD072C38D9FB382620240EC48AF2D55F71848A4CD.aspx?s=%22Aaron+Kalin%22# , and patTemplate (http://www.koders.com /php/fidC74F2B26AB1C9A178F6FC1EC45C557CC49064E1B.aspx?s=%22Aaron+Kalin%22#

This resumé and web site were all hand-written in XHTML 1.0 with CSS and JQuery.

# Helpful to others

In-game Support (GameMaster) and Quality Assurance for Neocron and [Neocron 2 (http://www.neocron.com/)](http://www.neocron.com/) , where I helped customers who had technical and account issues along with tracking and testing for bugs in the game. [I'm even listed in the game credits (http://www.mobygames.com/developer/sheet/view/developerId,212419/)](http://www.mobygames.com/developer/sheet/view/developerId,212419/) .

Worked as a sales representative for Gamestop (formerly EBGames) where my knowledge of computers was useful to helping customers find the correct PC Game products.

A 4 year member of the [501st Legion (http://www.501stlegion.org/members/displaymemberdetails.php?userID=4802)](http://www.501stlegion.org/members/displaymemberdetails.php?userID=4802) , which is a non-profit Star Wars costuming group dedicated to charity and community service.

Currently in a customer service position with Apple, where I diagnose and troubleshoot problems for Mac users. I'm also an Apple Certified Macintosh Technician (ACMT).
